

## HOLLYWOOD

Astoria presents Hollywood, the new espresso machine born from the revolutionary influences that invaded American cinemas in the 1970s: from Easy Rider to Taxi Driver, a journey through the cinematic culture of an iconic decade.

Five pop-art colors for compact, fluid curves. Characterised by bold stripes and cinematographic LED lights. The shot timer, which indicates the extraction time for each individual group, has been improved, along with the new, steam wands with a wider diameter. The flap racks means it can be used not just for espresso cups but also for glasses for latte-based drinks.

*To each his own time - Accurate measuring is crucial in making espresso. The Shot timer with indication of extraction times has been further renewed to be able to obtain maximum precision for each individual group and set the perfect timing for each drink and type of coffee.*

*High quality in the cup - The steam wands, crucial for achieving the quality of the frothing and frothed milk, have a larger diameter to allow for better dispensing. Furthermore, the machine can be used for both espresso cups and glasses for milk-based drinks.*

## MAIN FEATURES

All bodywork, excluding curbs, are made of sheet metal making a solid and resistant machine

Shot timers

Drop down cup raisers

Two steam wands with larger diameter steam nozzles

LED work lights

Illuminated back

Mechanical buttons

Six different pre-set doses

Copper boiler and pipes

Double scale pressure gauge for boiler & pump pressure

Boiler water level light indicator

Automatic water inlet (AEA)

Automatic hot water

One push-button water dispenser

Internal motor pump

Available in 2 & 3 high group

Available in black, white, red, blue & green

### OPTIONS:

Auto steamer - Cold water injection

## 2GR MODEL

## TECHNICAL DATA
