

TEMPESTA BARISTA ATTITUDE

Tempesta is a blend of craftsmanship and high technology. Thanks to Tempesta, baristas are free to express themselves and explore their capacity for experimentation through simple and comfortable actions.

The Look - We believe in the beauty of ergonomics because we also understand the concept of the scenic importance of the space around us.

Design - Tempesta has taken into account the barista's movement requirements and his/her need to operate the leverages to adjust coffee according to targeted taste and conception. The analog functions that enhance the customized brewing curves are also accompanied by digital storage.

Innovation & Practicality - The fully innovative suspended drip tray features a formal tray which supports the cup during brewing. Indeed, the cup is no longer hidden from the machine, but rests on a plate, as if it were a prima donna on stage. This design also produces practical effects because the drip tray, with its rounded lines, is easy to clean.

Emotion - Tempesta arouses emotions and was built in tune with the most technologically accurate studies.

MAIN FEATURES

Touch screen display for extraction cycle, shot times, usage stats, adjustment parameters and much more

Digital boiler pressure display and control

Adjustable user interface

Multi boiler technology

Electronic cup warmer

Operating mode choice

Two anti-scalding steam wands

Dry steam dispensing

LED Work lights and back lights

Adjustable pre-set doses

Energy saving system

One push-button water dispenser

Basin tray and feet height adjustable

Available in 2 & 3 high group

Available in black/stainless steel finish

OPTIONS:

Autosteamer - WiFi for telemetry

3GR MODEL

TECHNICAL DATA

	2GR	3GR
Dimensions (mm)	1035/618/500	1075/565/575
Max. absorbed power (230 - 400/240 (V)	4800/5230 W	6400/6970 W
Power per group (W)	150 x2/165 x2	150 x3/165 x3
Coffee water tank resistor power per group	1000 x2/1090 x2	1000 x3/1090 x3
Steam heating unit power (W)	3000/3270	4000/4360
Steam heating unit load capacity (L)	8.5	8.5
Coffee water tank load capacity (L)	1.2	1.2
Weight (kg)	85	105
