

SYNCHRO

Available in Black, Red or White.

Choice of Colours

Choose a colour that blends in with your space or go for something bold and make a statement.

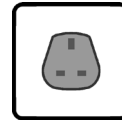

Programmable Pre-infusions

Allow coffee to develop its flavour naturally and completely saturate every dose.

2x Ergonomic Group Handles

One single and one double. Weight-balanced and comfortable to use.

Plug in and Go Power

Can take power straight from a mains socket with a normal UK three-pin plug.

Hot Water Tap

Gives the flexibility of making other hot drinks such as tea, all with one machine.

Manufactured in Italy to the highest of standards, barista champion David Makin aims to marry the latest technology with sharp colours and aesthetics. Features also include a stainless steel steam wand and manual group overrides. It produces up to around 40 or 70 drinks a day (boiler size dependent).
